

A dopt an Inner City Youth to Camp

Highlights of the event

Teen Mania/Extreme Camp is an event geared toward teens to help them see that seeking God with all their heart is a great life changing event!!

The atmosphere which this event provides is to allow the teens to get away from their inner city environment which they are in, not by choice in most cases but due to circumstances beyond their control, and allows them to gather with thousands of other teenagers who have come together for the purpose of having an encounter with God and to seek his direction for their future life. Just getting them off the streets and in this setting can be life changing in itself, and these events might be the last stop for some of our inner city Teens.

In the past, some of our inner city kids have had awesome encounters with God while attending this event. Many went forward for prayer and for answers that we as mere men and women could not give them. Only the Lord himself could provide this answer.

The Cost is \$250.00 Per Student.
